LOCAL STOCKS AND BOXDS. Dealings Very Fair-Some Stocks Higher, Others Weaker.

A fair business was done this morning on the local stock and bond exchange and in neveral in-

stances better prices were obtained. There were quite a number of orders on the market, but no great pressure to either sell or buy. Pealings were all conduced to stocks, of which ishares sold. Nothing being done in bands of any description.

AMERICANS IMPROVED IN LONDON MARKET.

GENERAL MARKET RATHER HEAVY.

Exchange Movements in Paris and Berlin Indicate a Demand for Gold-Grangers Stronger.

REPUBLIC SPECIAL.

New York, June 18.-American stocks in London to-day were better upon the whole. although rather inactive. The best buying was in Southern Pacific, which continued strong up to the close on purchases said to be for the Speyer following here. The general market was rather heavy, and convere weaker at 199%, a further decline of % per cent on the threatening sapect of the Chinese situation. The Scuth African news continued favorable, and money on London was easy, at 2% per cent in the open discount market. The movements of exchange in Paris and Berlin indicated a demand for gold at those centers, which would have to be supplied by London or New York, but probably the latter. There was quite a distinct rally on the

The granger stocks derived some strength there was less liquidation in them for the West. London supported the international list by purchases of about 12,000 shares on balance, and very fair buying was reported in the Vanderbilt stocks and trunks. Union Pacific was hard on the revival of

the rumor of closer relations with Iillnois Central. The steel stocks, after opening rather heavy under pressure from Chicago, railled quite a little on the announcement that the anti-trust plank in the Republican platform would be a very moderate one. The other industrials were mm for the same reason, and the dismissal of the suit against Brooklyn transit on the question of the advanced late to Copey is and coned the advanced fare to Copey Island nesped

the advanced lare to Concy Island nesped the traction stocks. The market gave way somewhat before the close and flushed rather neary, having lost most or its raily. Tractors profit-taking on parchases made this morning was responsible for this and very fittle strong build interest was found to resist pressure. Tractions were very neavy and the general tone disappointing. Money easy.

The Chinese situation continues to check speculation in Engand and the latest amouncement that the Powers would request Japan to send 20,000 men to Pekin to restore order is scarcely reassuring in view of the

order is scarcely reassuring in view of the fact that Russia has a considerable army

arready on the frontier.

The decline in consols, amounting to 5, per cent in two days, is rather disqueding and especially when it has been accompanied by a corresponding full in French centes.

and especially when it has been accompanied by a corresponding fall in French renes.

The Republican Convention is a factor in the market just at present and it looks unlikely that the important street interests who have so much to lose by the defeat of the Republican party will allow rtocks to give way for the present. Pacific Mail has shown a little more strength on the reaffirmation of the ship subsidy bill at Philadelphia. Norfolk and Western gross earnings for the second week in tune were exceptionally large, showing \$50,752 lacreese. It is hoped that the Chicago meeting of the axecutive officers of Western roads may result in a pooling arrangement. St. Paul showed a good increase in its earnings and this has helped to give strength to the granger stocks. The borrowing demand still indicates a fairly considerable room short interest, aithough this is probably modified by stock sold but not delivered. It has at any rate been the best support of the market in the past few days. Crop reports continue rather mixed, although most of them admit more or less damage to the spring wheat.
